

Enbridge Pipeline Capacity Expansions – Benefits to Williston Basin

Brad Shamla¹

Enbridge is investing more than \$12 billion to expand its existing liquid petroleum pipeline infrastructure to better serve existing markets, expand into new markets, and provide necessary terminalling and tankage facilities to ensure that the growing supply of liquid petroleum from the Williston Basin and Northern Alberta can attract the greatest value in the market.

¹Enbridge Pipelines Inc., Regina, SK

Brad Shamla is the General Manager of the Central Region with Enbridge Pipelines Inc. in Regina, Saskatchewan. Brad joined Enbridge in 1991 and has worked in several locations including Edmonton, Alberta; Minot, North Dakota; Superior, Wisconsin; and Bemdji, Minnesota. He is a Professional Engineer by training, having received his Bachelor of Civil Engineering (BCE) and Master of Business Administration (MBA) degrees from the University of Minnesota.

Brad is active in the community and is a Member of the Saskatchewan Chamber of Commerce Board of Directors, Member of the United Way of Regina Board of Directors, and a Member of the City of Regina's Green Ribbon Climate Change Advisory Committee.

In addition to Brad's professional skills, he is an avid Walleye Angler but refuses to tell us his golf handicap. Brad and his wife, Lauri, live in Regina with their two children.
