

Operated by:

Effectively Eliminating H₂S in an Economical and Environmentally
Friendly Way

Tom Wilson & Dan Johnson

Key Points

NO Chemicals
NO residue left

Has eliminated over 70,000ppm H₂S

Environmentally Friendly

Only byproduct is a very weak sulfuric acid that can go into a disposal well

Safety

Corrosion

Benefits of using Blue Bull

- No Chemicals used means no residuals left in the oil
- Eliminate H₂S on location, making the workplace and environment safer
- Provide remote monitoring of machines
- Drastically reduce the corrosion in pipes and tanks
- Make your oil exceed H₂S regulations
- ***Increase your profit*** by reducing money spent on chemicals, replacing of corroded parts and allowing you to get top dollar for oil that would otherwise be sold at a reduced rate

H₂S Elimination Systems
