

North Dakota Oil and Gas Industry Outlook

Alison Ritter¹

Abstract

The North Dakota Oil and Gas Industry outlook will highlight the steady growth in activity over the past year. The Bakken Pool continues to be the primary target as interest in this evolving oil play seems to touch all corners of the globe. The outlook will focus on production as well as what's being done in the state to reduce flaring.

¹North Dakota Industrial Commission, Department of Mineral Resources, Bismarck, North Dakota

Alison Ritter has been the public information officer with the North Dakota Department of Mineral Resources since September 2011. Prior to her work at DMR, Alison worked in television for a local Bismarck station. Alison is excited to share all that continues to change with the North Dakota Oil and Gas Industry.
